بارم	سوال	ردیف
	<p>A growing number of engineers and architects (people who design buildings) have been looking for new ways to make buildings that don't waste a lot of energy. Improvements have come in many forms, including better covering, windows, and construction materials.</p> <p>Architects are also realizing that the size and location of a building affects how much energy it uses. Even the arrangement of buildings in a neighborhood makes a difference.</p> <p>In the last 10 years, there has been a major movement toward what you would call 'green' buildings. Such buildings are also described as environmentally friendly, or healthy because they produce less pollution to the environment.</p> <p>46. From the above passage, we understand that most people</p> <p>a. don't know how to heat or cool their houses b. look for ways to make buildings less wasteful c. like to have big and beautiful houses d. don't think about the source of energy they use</p> <p>47. The underlined word 'they' in the second paragraph refers to</p> <p>a. engineers b. transportation and industry c. buildings d. people</p> <p>48. According to the passage, the 'green' buildings</p> <p>a. will be our close friends b. cause little damage to the environment c. use more energy than any other economic category d. produce trash or add pollution to the air</p> <p>49. The passage tells us that architects are trying to</p> <p>a. build modern buildings b. look for a different neighborhood c. improve a major movement d. design buildings that waste less energy</p> <p>50. The underlined word 'including' in line 5 means</p> <p>a. such as b. as c. instead d. without</p> <p>True or False</p> <p>51. The passage tells us that all kinds of energy produce air pollution. A. True B. False</p> <p>52. According to the passage, the amount of energy that a building uses depends on its size and location. A. True B. False</p>
